

Capturx® Software Installation Requirements

Overview

Except for Capturx Pen Manager, all Capturx software products and tools require “per-user” installation. They must be installed for each user on the computer that will be used with the software.

As shown below, a few products require administrative rights during installation.

Product	Version	Rights Needed	Must install for each user
Capturx Pen Manager	3.2.1, 3.3.1, 3.4, 3.5,	Admin (required to install services)	No Per-user setup operations will automatically start when subsequent users login. A reboot may be required.
Capturx Forms for Microsoft® Excel®	1.1, 1.1.2, 1.2, 1.2.1	Admin rights are required for the prerequisite VSTO. If VSTO is already installed, a non-administrator may install Capturx for Excel. <i>See VSTO section for details.</i>	Yes
Capturx Markup for PDF	1.1.3	Non admin	Yes
Capturx for ArcGIS® Desktop	1.2, 1.2.1	Non admin	Yes
Capturx for ArcGIS® Desktop	1.3	Admin	No
Capturx for Microsoft® Office OneNote®	2.2	Non admin	Yes
Capturx Print Optimization Utility (POU)	4.1	Non admin	Yes
Capturx Pattern Migrator Tool	4.0	Admin	No The shortcut will be created only for Admin users, Non-admin users can use the tool from the installed location.

Capturx® Software Installation Requirements

Capturx Pattern Migrator Tool for Capturx for SharePoint®	4.1	Non admin	Yes
Capturx Forms Service Publisher	1.6	Non admin	Yes
Capturx Forms Service Print Utility	1.6.x	Non admin	Yes

Installing VSTO

Capturx for Excel software uses VSTO (Microsoft Visual Studio Tools for the Microsoft Office System) to integrate with Excel. VSTO requires Administrator permission for installation. If the Capturx for Excel installer is launched by a logged-in user with Administrator permissions, then VSTO will be automatically installed.

If you wish to install Capturx for Excel software *without* Administrator permissions, you must first install the following two packages from Microsoft. *Note: both must be installed by a logged-in user who has Administrator permissions, even though SP1 doesn't prompt for this.*

- VSTO Base:
<http://www.microsoft.com/downloads/en/details.aspx?FamilyId=54EB3A5A-0E52-40F9-A2D1-EECD7A092DCB&displaylang=en>
- VSTO Service Pack 1:

Installing on Microsoft Windows® XP®

If you run an installer as a non-Administrator, Windows XP will prompt you with the following dialog. Unless Administrator permissions are required in the Overview table, it is fine to continue as the current user by clicking the "OK" button.

Capturx® Software Installation Requirements

Office Setup with .NET Programmability Support

Capturx for Excel software requires the optional Office component “.NET Programmability Support” which may not be installed by default.
