

Quick Start Guide

Thank you for purchasing Capturx!

This quick start guide will walk you through installation and getting started with Capturx Mobile for BlackBerry in 4 main steps:

1. Confirm System Requirements.
2. Download Capturx Mobile for BlackBerry on your mobile device.
3. Select the Capturx Mobile icon.
4. Pair your BlackBerry device with the Digital Pen.

Capturx Mobile for BlackBerry Installation and Pairing

1. Confirm System Requirements.

- BlackBerry version 4.3 or greater, 4.5+ recommended
- Ensure you have correct system requirements and a phone plan that includes email
 - ⇒ *Due to different hardware and software options, some Blackberry devices will not be supported. Please contact sales for more information at sales@adapx.com.*

2. Download Capturx Mobile for BlackBerry.

- A. Access the following link via your BlackBerry
<http://www.adapx.com/download-verification/capturx-mobile-for-blackberry>
 - ⇒ *Note: Capturx Mobile for BlackBerry is downloaded directly to the device. BlackBerry Desktop Management is not compatible.*
- B. Submit your unique customer number, found in your Shipping/fulfillment confirmation email.
- C. Begin download and follow the prompts.

3. Select the Capturx Mobile Icon.

- A. Locate "Capturx Mobile icon" in **Downloads** folder on home screen. Move icon to home screen by selecting icon and choosing the option to **Move to**, and select home screen.
- B. Restart phone after install, then prompt appears to grant Capturx full trust, select **Yes**.
- C. If prompted to enable Bluetooth, select **Yes**.

3. Select the Capturx Mobile Icon. (continued)

- D. The EULA will appear. Select **I Accept** to continue.
- E. Capturx Mobile for BlackBerry screens and options can now be accessed. See Capturx Mobile for BlackBerry User Guide for details:
<http://www.adapx.com/WebHelp/CapturxMobileForBlackBerry/Help/>.

4. Pair Your BlackBerry with the Digital Pen.

- A. Uncap digital pen, so BlackBerry pairing mode succeeds.
- B. Navigate on BlackBerry home screen, select **Manage** connections, then select **Set Up Bluetooth**, and **Listen** or select **Search** to search for the digital pen signal.
 - ⇒ Once search completes, the Bluetooth device list appears.
The digital pen may take 30 sec to appear.
- C. If you selected **Listen**, use the Capturx Pen Utility Card and check the **Bluetooth Pair to Phone** checkbox found on the back of the card.
 - ⇒ Once the two devices sync, the Bluetooth device list appears.
- D. Select digital pen device name, "DP-201"
- E. Dialog appears requesting **Enter Numeric Pass key**, enter the 4 digit pin number** of the digital pen.

Now that Capturx Mobile for BlackBerry has been installed on your BlackBerry device, and the digital pen has been paired with your BlackBerry, it's time to complete your initial data upload!

To Get Started, the following components are needed: paired digital pen, Capturx printout, BlackBerry mobile device, and a laminated Capturx Pen Utility Card (physically shipped to customer location). When ready to send pen data to the BlackBerry, check the **Send Pen Data to Phone** box on the Capturx Pen Utility Card with the digital pen, and data is sent automatically.

Please consult the Capturx Mobile for BlackBerry UserGuide for more details
<http://www.adapx.com/WebHelp/CapturxMobileForBlackBerry/Help/>

* If "DP-201" doesn't appear, cap and uncap digital pen to refresh device list.

** PIN number is provided in digital pen box on a label or located using Capturx Pen Manager by docking the digital pen to a PC.
